From: Ed Ginouves, Cedar City Field Office

Subject: **Reclamation Bond Release, Bawana Low-Grade Ore Stockpiles  
BLM file UTU-83086, DOGM file S/001/0086**

On November 18, 2014, the operator, CS Mining, submitted a request to the Division to have the \$9,000 bond for the 83086 authorization released. This disturbance area is now separately bonded through the Division permit for the Hidden Treasure Large Mine, DOGM file M/001/0067, BLM file UTU-82071. Pertinent information for this operation is abstracted below. Call or E-mail me if you have any questions.

BLM Case File: UTU-83086

Type: 43 CFR 3809, stockpiling area

Legal Description: T. 27 S., R. 11  
Sec. 22: portions of SWNESE (BLM land)

Proposed Action: Release of current project bond and file closure,

Bond Adjustment: **The project area is currently double-bonded – through the original Division authorization of S/001/0086 (BLM UTU-83086) for \$9,000 and through the Division large mine permit authorization M/001/0067 (BLM UTU-82071), for \$14,000. As the \$14,000 bond for the UTU-82071 plan is adequate to cover all of the existing reclamation liabilities accrued through the UTU-83086 plan, the bond for the UTU-83086 plan can be fully released and that case closed.**
